🎓 Qualified IB Tutor | PGCE in Secondary Education

As a passionate educator with a decade of experience, I specialise in teaching Maths and Computer Science to IB and IGCSE students. My approach is rooted in making complex concepts accessible and engaging. I believe in fostering a deep understanding and love for learning, guiding my students to achieve academic excellence and build strong problem-solving skills.

Teaches: Maths Computer Science

Curriculum: IB IGCSE GCSE

Qualifications

University of Edinburgh: MSc in Computer Science (2012-2014)

University of Warwick: BSc in Mathematics (2008-2011)

University of Oxford: PGCE in Secondary Education (Mathematics) (2014-2015)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

With over ten years of tutoring experience, I have had the privilege of working with a diverse group of students, helping them excel in both IB and IGCSE curriculums. My journey began after completing my PGCE, where I honed my skills in teaching Mathematics at the secondary level. I quickly discovered a passion for one-on-one tutoring, allowing me to tailor my approach to each student's unique needs. My teaching philosophy revolves around creating an interactive and supportive learning environment. I utilise real-world examples to make abstract concepts more relatable and understandable. Over the years, I have developed numerous strategies to help students overcome common challenges in Maths and Computer Science, particularly in areas such as calculus, algebra, programming, and data structures. My goal is to empower students not just to pass exams, but to truly master the material, fostering critical thinking and problem-solving skills that will serve them in their future academic and professional endeavours. Whether working with students who are struggling or those who are aiming for top grades, I take pride in helping each of them reach their full potential.
