### Tutoring Experience

I have been tutoring IB and IGCSE students for the past six years, focusing primarily on Mathematics, Statistics, and Economics. My approach is student-centered, tailoring lessons to the individual needs and learning styles of each student. Over the years, I have helped students from diverse academic backgrounds excel in their exams, with many of them securing top grades and gaining admission to prestigious universities. I also provide extensive support in internal assessments and extended essays, ensuring that students not only meet but exceed the requirements. One of my key strengths is breaking down complex concepts into easily understandable segments, making learning an enjoyable and rewarding experience. My commitment to my students goes beyond the classroom; I am always available for additional support and guidance whenever they need it.
